Create A Better Workplace

Your Work Efficiency Expert
#WorkWithYou

Since 1997, Apex has been synonymous to creating a better workplace for workers' elevated efficiency, productivity, and sense of wellbeing. The primary driving force in our business is to create rich dynamics of product innovation, evolution, and adaptation routinely - with effective services.

As an award-winning work efficiency expert to our clientele both nationwide and internationally, we focus on people, function and space. We celebrate inspirations and ideas. We champion for professionals to interact, inspire, innovate for career excellence.

At Apex, we repond quickly and design to work with you, and for you.

Your Work Efficiency Expert

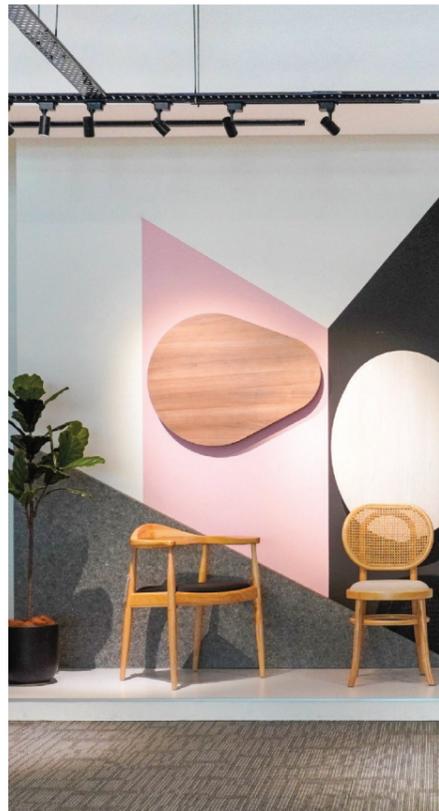

Since 1997, APEX has been synonymous to creating a better workplace for workers' elevated efficiency, productivity, and sense of wellbeing.

As a leading manufacturer, wholesaler, and retailer of human-centric office furniture designs and essentials, our continuous improvement and sustainable development in our services and products over the years has put us on the world map.

We have come a long way since our days as a modest furniture supplier and trader, to now an award-winning work efficiency expert to our clientele; both nationwide and internationally.

Aulenti

If we say “architecture revives a city”, then office desks should almost determine the office environment. The powerful front contour, and those diamond-like splendid curves are all inspired by the dual edged infinite display of Galaxy S8. The concise and bright shape of crossed desk legs demonstrate a perfect combination of strength and beauty. Special formaldehyde-free water-based dual varnishing technology helps to create a greener and friendlier office atmosphere.

Innovation, for the Eyes that Perceive Beauty

The cable-stayed design of the framework is the essence of Aulenti's "strength and beauty". It is like the immense whale bone, stable and full of dynamic sense.

It is like the antenna of City of Arts and Sciences in Valencia, perfectly integrating art, technology, beauty and strength.

Side Cabinets that are Also Highlights

The octagon shape makes it both elegant and lively.
The extension of cable-stayed design matches perfectly with the main desk.
Large-capacity drawer makes the whole space clean and organized.
Every line and every detail elaborates the conciseness and luxury of Aulenti.

1. Convenient USB Charging

The panel is equipped with USB charging function. Aulenti cares about you in every detail.

2. For Organized Storage, for Easy Classification.

Wooden meteor gray storage drawer makes it easier to sort out small items.

3. The Light Belt Designed to Build Up the Atmosphere

A stylish light belt is installed inside the cabinet's display area to shed soft lights through acrylic board.

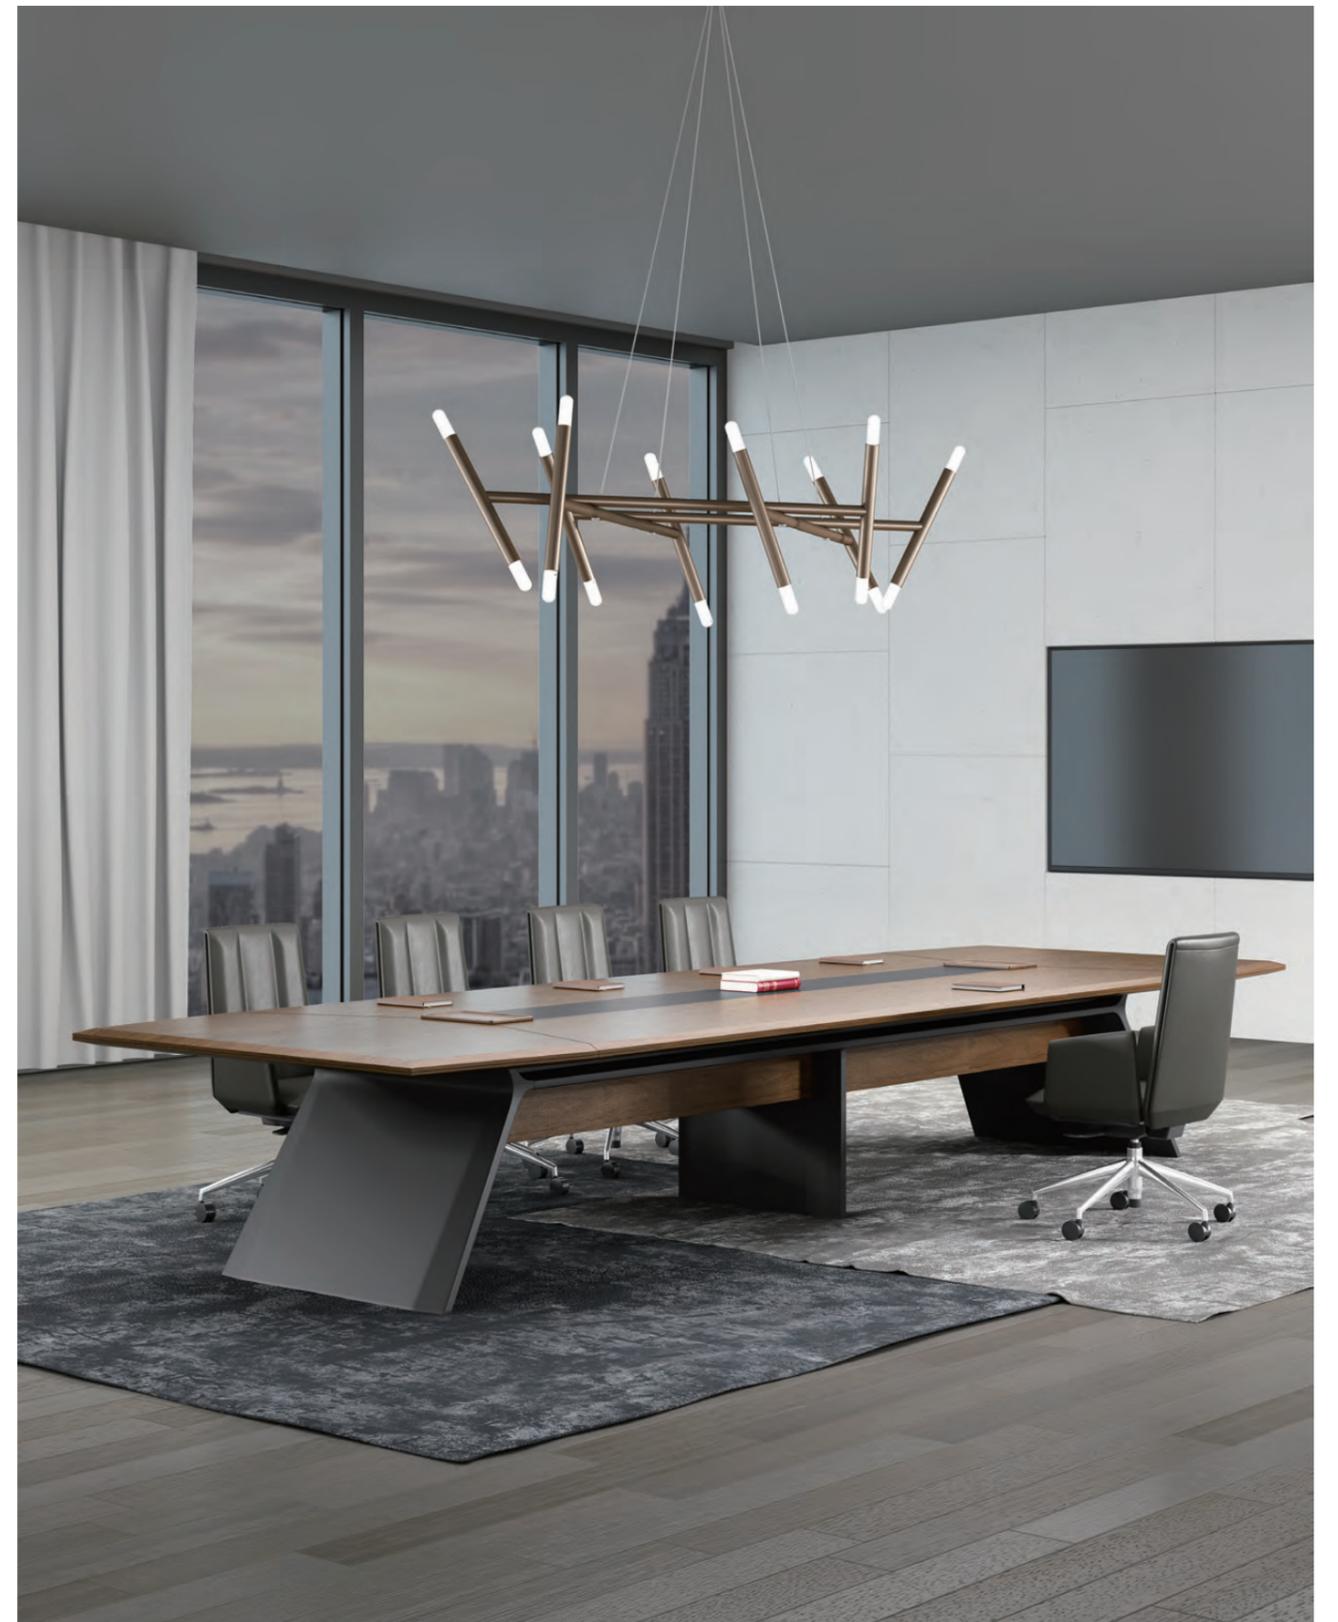

Back Cabinets with Geometric Beauty

The natural wood grain and the matte leather make the cabinet classic and exquisite, and make the whole office trendy and unique. Cabinets composed of geometric blocks which represent minimalist spirit practice the functions of display and collection to the fullest. Techniques of grooving and binding the edge and corner overturn the flat opening mode and allow the user to switch the cabinet between storage and display area at will.

Urban Elite

The octagonal desktop looks infinite with the extension of lines. The wood grain texture outlines a sense of mystery and mildness. The smoothly forged desk legs look powerful but never too aggressive. The meeting space is neat, steady and trendy. It is unique and shows professional demeanor.

5 Power Supply Tracks

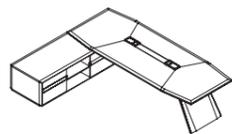

Application of modern technologies and humanized configuration help redefine efficiency in workplace. 4 leather-upholstered segments in the middle of the 6.8/8.4m-wide desktop is designed with aluminum alloy frame with each short edge equipped with a track for slideable power plugs. Users seating on four sides of the desk can enjoy convenient power use.

Slideable Power Plugs

The power supply track is designed with a narrow slot only accessible for its matching plugs. Users can insert plugs into any spot of the track, thus implementing more safe and convenient power use.

Features

Sliding Storage

Sliding storage has a black color body on the inside and a woodgrain door with a 45-degree edging.

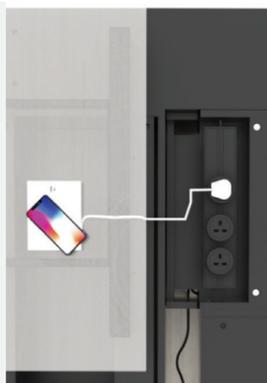

Private Drawer

With a digital lock and a lightweight drawer that uses a 45-degree edging as a hidden handle, you can safely store your confidential items away.

Power Track

Removable and adjustable premium plug adapters for office work desk. The sleek and modern design adds a touch of sophistication to any modern office with safety measure and high electrical load capability.

Wire Solution Storage

Swing storage with a black color body on the inside and a woodgrain door with a 45-degree tilt. This storage organizes your cables and conceals them.

Flipper Casing

Designed for the best wire management solution to suit your modern day office needs.

Bottom Swing Storage

The inside body is 18mm thick in BLACK, while the door is MASHA WHITE. The door forgoes a handle and features a 45-degree edging at the top that functions as a hidden handle.

Swing Storage

Clothes hanger with a BLACK inner body and a MASHA WHITE door to organize your attires.

Open Shelf

Everything is 18mm thick BLACK, except for the 25mm thick MASHA WHITE shelf. LED lighting can be added to shelf paneling as an option.

NOA

Beauty Simplified

Minimalistic design with spacious storages.

Integrating modern design ideas with classic styling while keeping comfort and functionality in mind. It has a mix of modern and classic vibes to it. The back storage is visible in the same finishes as the desks, and the stone pattern on the door panel adds to its allure.

Main Table & Back Storage

WK-NOA-01-F (L)
WK-NOA-01-F (R)
NOA table with Flipper Casing

WK-NOA-02
NOA back storage

Features

Open Storage

Each side of the table features open storage in front, on the side, and within the table. It can hold books and magazine collections.

Private Drawer

With a soft-closing drawer, 4-combination numbering lock, and 45-degree angle edging as a hidden handle. The private drawer stores important documents and more personal items.

Wire Solution Storage

Top storage with flipper casing. Storage with a swing door to conceal and support the wires and cables.

Swing Storage

The wire and cables are concealed and supported by the middle swing door.

Back Swing Storage

The interior is BLACK, and the door is MODI OAK with a slanting edging as a hidden handle. Closed cabinets hide disorganization and make a room appear visually cleaner and more cohesive.

Height Swing Storage

The interior is BLACK and the door is MODI OAK. It can act as a personal storage which includes an adjustable shelf and a suspended clothes bar for hanging your apparels.

Open Storage

Open storage with a full black colour scheme. Ability to organize hardback file documents and also serve as a display rack for decorative pieces.

Sliding Storage

The contrast of materials makes this design more appealing. The sliding door is coated by the stone patterned NEVILLE FAB.

Meeting Link Table

Features

Single Front Panel Range

The single front panel range gives an added privacy but not totally cut off from the outside world, it balances privacy and communications.

Clamp Netbox

The modular design allows for any service configuration, making it an ideal solution for workstations, meeting and conference tables, collaborative and public spaces.

Wireless Charger

Wireless charging eliminates the need for phone cables, allowing for a cable-free workspace in the future.

Wire Terminal

Connecting all wires into one terminal not only gives it a systematic feel, also makes the workspace clutter-free.

Modesty Range

When your lower body is covered, you have an added sense of security, allowing you to focus on the task at hand.

In-Desk Netbox

Avoid bending down all the time to plug in your wires when you have a in-desk netbox for your electronics.

Wire Casing

The casing hides your wires to conceal the plugs and make it appear more sorted.

Verta

The conference in Verta series is designed with concise appearances which endow the office space with an easy and relaxed atmosphere. We can implement co-working even in a small space. Here, employees are more willingly to have discussions and active learning in such an environment. Modular units implement free combinations for co-working even in small office spaces.

Lipa

In work, one email, one call and even one meeting can lead to a connection.

The ratio of success depends on the connections you make with the world. More connections bring higher ratio of success.

Lipa, Create More Connections for Success.

Executive Space

Creators, Lead the Future

Never deliberately emphasize the status, always stay gentle and humble.

Always keep clear thinking, and link to a wider world.

Lipa,
Minimalistic Style, Infinite Imagination,
Marvelous Construction, Unworldly Taste.

Within Reach, Handy Use

The multi-function side cabinet has two versions. Reasonable inner space partitioning gives its drawers sufficient storage room.

Innovative handle design perfectly fit the point of finger strength so you can open and close the cabinet at ease.

Flip box, frosted with metal, delicate and elegant. Fitted with multi-outlet panel, it meets the power demand of different systems.

Working Space

Coordinators, Agile Response

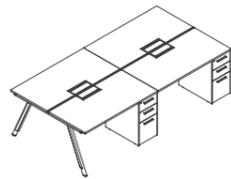

Dynamic Space
Better Coordinating Experience
Lipa, A Style of Its Own
Teamwork with flexible interaction
Connecting fun and creative ideas freely.

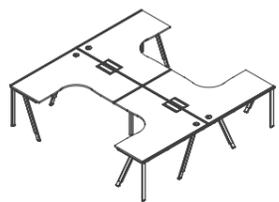

“Bespoke” , Optimization of Space

Focus on teamwork, I-shaped with cabinets, modular design, proper storage space of office and personal belongings. “1+1” assembly and array extends infinitely in space, a great improvement of space

**Diversified Combination,
Young Generation Style**

L-shaped desk top orderly assembled using the 90°right angle. 2-person team can be formed with a turnaround, making communication more convenient.

A glass screen is fitted in to meet the demand for open and private space at the same time, bringing unprecedented experience to highlight energy and vigor.

**Privacy-friendly
an Coincidence with Modern Aesthetics**

Compared to the double E-shaped workstation, the H-shaped workstation aims at flexible work coordination. The enclosed workstation is good for concentration and independent thinking. Young and fashionable match of colors create a concise and open work environment.

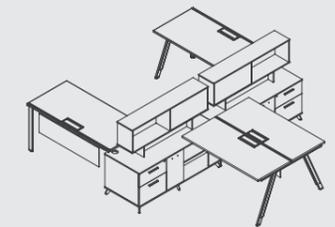

Dare to Change, True to Oneself

120° workstation, a breakthrough of the conventional office mode. The whole workspace can be broken into three-person or six-person collaboration workspace, a big increase of work

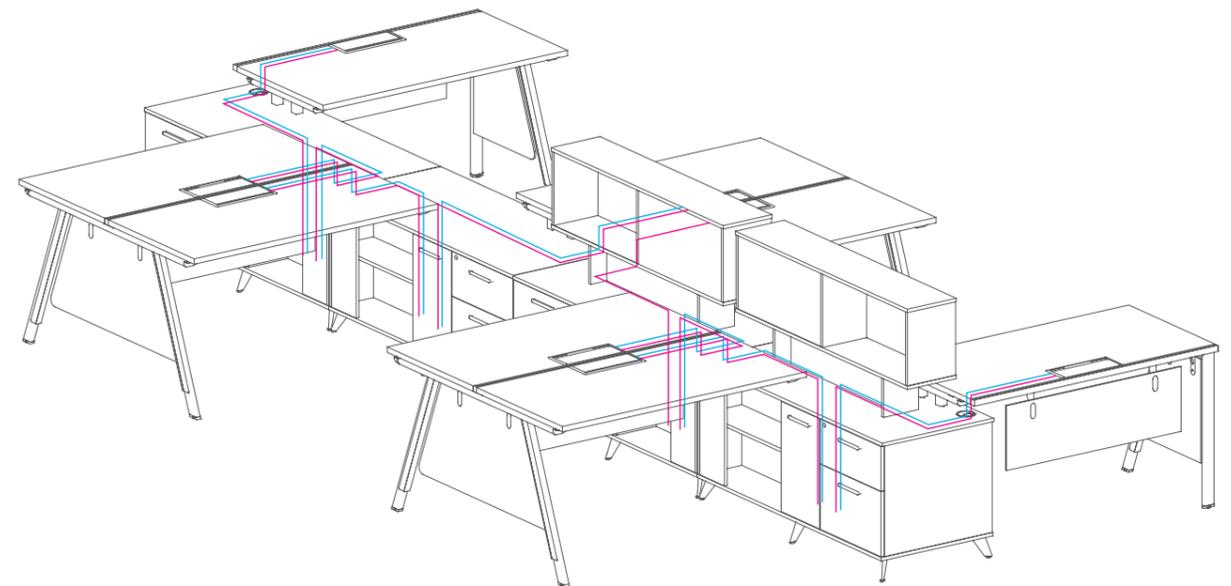

Combination of Functions and Intelligence

Shared central cabinet, linking to multi-scenarios of modern office, and realization of proper storage of files and documents with privacy consideration: an independent workstation of your own.

Wireless Connection, Cleaner Office

The in-cabinet cable routing safely hides cables. The meticulous attention to details keeps the whole office environment more compact and clean.

Involve More Communicators

- Balancing work and social life
- Attracting more people
- Lipa
- Shared Space, Personalized Expression
- Willing to Share, Efficient Interaction

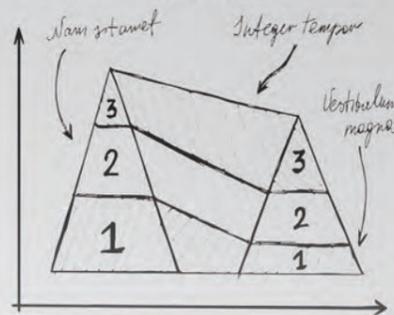

Negotiation Space

Temporary Communication

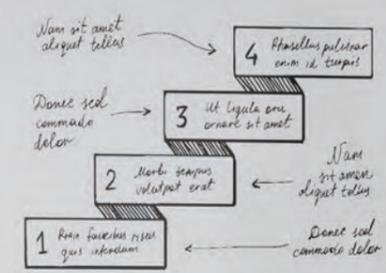

Small negotiation table. The mellow shape is consistent with the style of the whole series, meeting demand of small reception or temporary workout.

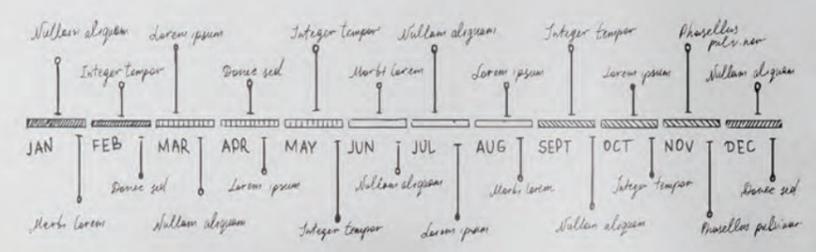

COST OPTIMIZATION

STRATEGIC GOALS

TIMELINE

Ample Room, Efficient Meeting

Formal meeting system. The minimalistic desk top and outward legs bring bigger legroom. Even a big meeting of 8-12 people won't find it cramped.

Konnect

Discussion tables are where ideas come to life and projects are developed. For a result that mixes together harmony, composure, reliability, and sophistication, the KONNECT series is meant for people to do its namesake: to connect.

K1

K1 Type

The symmetrical pattern and a blend of materials bring a simple product that excels. Elegant, sedate, and peaceful

a timeless design that's always in season. K1 with a four-star base gives the surroundings a dramatic profile.

K2

K2 Type

With the dynamism of modernism injected, K2 is beautiful, and beautifully made. Casual yet artistic lines of steel leg bring the tabletop

appropriate support. Capture creative ideas in this inspirational space.

K3

K3 Type

An admirable public space should enable multiple activities like meeting guests, savoring coffee.

Available in a round base, K3 can present totally different feelings and harmonize with various surroundings.

Spider

Spider is a comprehensive office set with executive desks, conference tables, and occasional tables included. Wireless charging eliminates the need for phone cables, allowing for a cable-free workspace in the future.

Wire Terminal

Connecting all wires into one terminal not only gives it a systematic feel, also makes the workspace clutter-free.

Modesty Range

When your lower body is covered, you have an added sense of security, allowing you to focus on the task at hand.

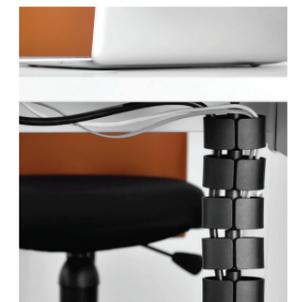

In-Desk Netbox

Avoid bending down all the time to plug in your wires when you have an in-desk netbox for your electronics.

Wire Casing

The casing hides your wires to conceal the plugs and make it appear more sorted.

Jason

FAS-level white oak from North America painted with food-grade wax oil finishing. Natural texture and colors are exposed with 45-degree beveled edges, creating a perfect combination of beauty and superior touch.

Say no to tedious office filled with cubicles. A modern office should be flexible enough and efficient spatially. For individual working, for meeting, for lunch, for reading... This is a space that has blurred the boundary of office and home.

The environment-friendly felt desk-mounted screen will create a new world for you. No matter for office working or communication, this space is all yours.

In a room filled with winter sunshine, there stands a high office desk, presenting the notion of minimalist aesthetic with the understated charm of burlywood.

It is processed with patented edge-banding technology with wood grain that is as real as the work of Mother Nature. The four corners are meticulously rounded to provide better support for your arms. Connected with mortise and tenon joint technique, it is a work of craftsmanship.

Nights are long in winter across the Arctic Pole. Finnish people always like to drink a little with several close friends in a time like this. See, who's proposing a toast and starts to sing tipsily yet happily? And who's lighting the campfire and begins another party? The dancing flame illuminates the lake, and lights up the dark winter.

Mandic

Efficiency always takes the first priority when it comes to staff training. Mandic collects desks, cabinets, and white boards for efficient learning. The feet design takes inspiration from elegant ballet dancers and the chair is easy to move with omni-directional castors. Mandic tables can be easily folded and stacked, saving more room for different training lessons.

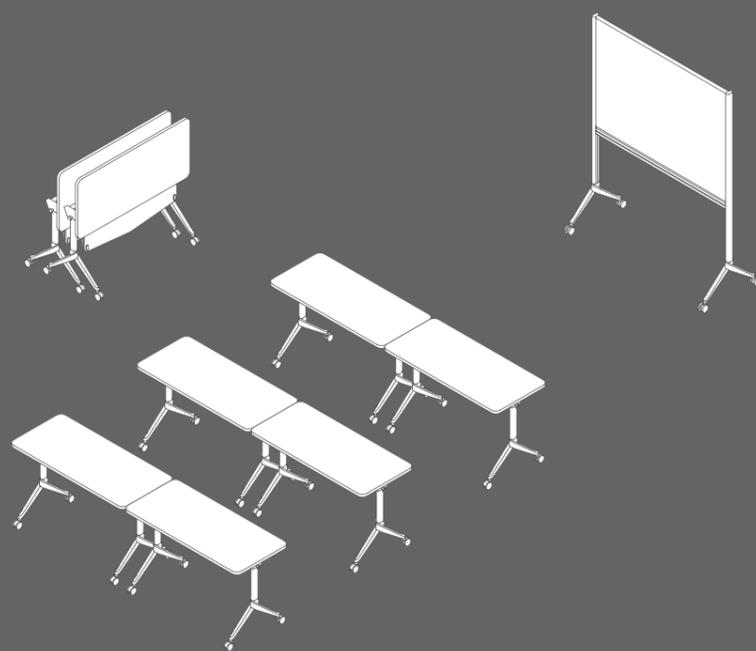

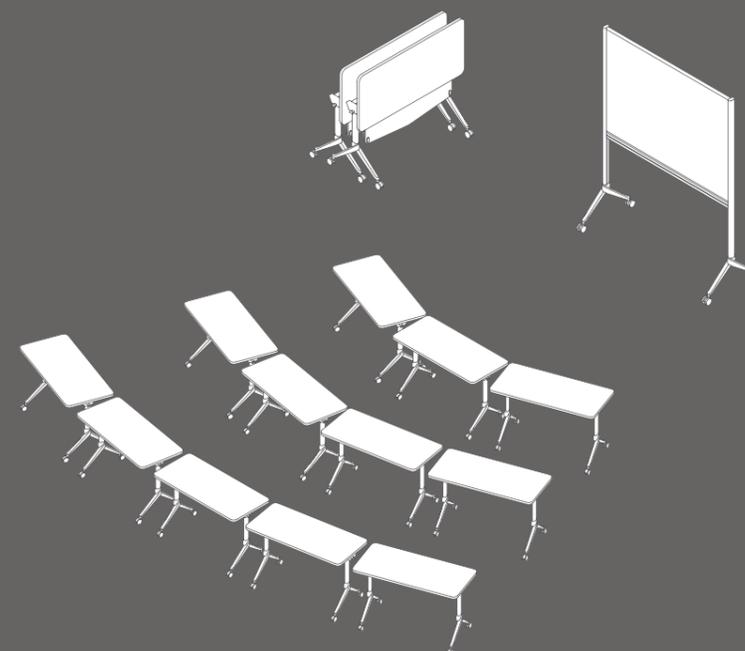

Two tables piecing together for cooperative training

U-shaped arrangement for core training

Linear arrangement for professional training

Arc-shaped arrangement for massive training

For Sitting Still and for Moving Around, Its Arc Shape triggers Your Learning Enthusiasm

The castor can be locked offering you your own learning space in a crowded conference.

Easy to Stack, More Space for Sharing

It could be moved around flexibly to meet the needs for space of difference meetings.

The innovative design of the foldable desktop with a switch in the middle edge allows you to turn it by 90 using only one hand. The modesty panel moves with the desktop to maintain its all-time beauty. Mandic could be stacked tightly in straight lines to save more space.

I-Tech	194
S-System	198
Screen	238

I-Tech

Creativity and passion will always be shackled by the rigid office setting exuding an infinite dullness. Fixed Office System of I-tech can be matched and mixed into different combinations: linear, X-shaped, H-shaped, L-shaped, S-shaped, Y-shaped...variable office setting will always intrigue people's working passion.

Many people nowadays are in sub-health status as a result of long sitting, and working efficiency is thus severely degraded. The height-adjustable system is for sit-to-stand working mode, it could be controlled by smart phones, and workstation reservation is also available on it. Keep up with the 5G era with I-tech system for digital and highly efficient working.

I-TECH

Smart Height-adjustable Office System

Workstation Reservation for Co-working Space

Manual Control and App Control

An alarm will be triggered to remind you of changing your posture.

Sitting/standing time and calorie consumption data will be recorded for health analysis.

It has a fallback function, with which the desktop will automatically fall back whenever it detects an obstacle during its height-adjusting process.

When the height-adjusting system goes wrong, an error code will be displayed on the screen to specifically indicate its problem.

S-System

The S-System is a flexible design and interactive concept. Professional yet open, people can feel much freer in a democratic space and engage with one another for a more commune working experience.

Intro

Embark on an interstellar trip

Focus: A space of your own

Communication: A conversation between you and me

Teamwork: Brainstorming at any time

Relaxation: Enjoy a moment of tranquility

MOVABLE BOOTH

Adjustable casters make its movement smoother and faster.

Acoustic insulation

high-density acoustic felt and other acoustic materials ensure a distraction-proof environment.

Pleasant ventilation

Ultra-silent and energy-saving ventilation indulges you with a refreshing breeze every minute.

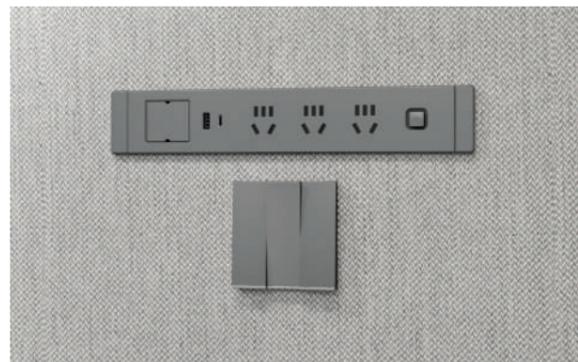

Eye-comfort lighting

4000K (color temperature) natural light LED ensures a comfortable lighting experience.

Convenient charging

100-230V/50Hz and 12V-USB adapt to most mainstream devices.

VERSATILE

Create a private space in an open-plan workspace for making phone calls, reception, communication, and ad-hoc work.

PRIVATE

Meeting space

A choice between privacy and semi-privacy allows you to make phone/video calls expediently, and offers a solution to ad-hoc discussions.

CREATIVE

Brainstorming space

A high-resilient back cushion gives your waist soft support when you stand up.

D1

Flexibility of a workplace is like the eco-system of an island: with different natural elements to make it vibrant and rich. D series includes screens, tables, seatings, and other office facilities, which integrate working, communication, leisure and other working-modes harmoniously, providing a healthy office ecosystem.

1200mm-high panel screen with acoustic material surrounding the desk helps build an individual working space where you are freed from visual and sound interference.

How to balance me-working and co-working? A screen in the middle let users flexibly switch between focused work and discussion with a partner beside.

Office Leisure Zone

Leisure zone

Be there when you need a time off. A leisure unit built with D series products: a single sofa with high backrest, a panel screen, and a matching table top. Relaxing/reading/working/resting here when users need a time alone would be a perfect choice.
